

STOP OUT NOTICE

Due to unprecedented market volatility, we are forced to strictly apply the minimum 50% Maintenance Margin requirement on all your open positions from 18:00 GMT on Fridays until 24:00 GMT on Sundays. Please monitor your open positions during this time of increased market volatility and ensure that your account is fully margined at all times in order to avoid auto liquidations if your account's Equity falls below 50% Maintenance Margin level during the times when it is enforced.

This shall be applied weekly until further notice.
